Welcome

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives.

Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges.

Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide.

About Webinar

The **International Webinar on Cosmetology** will take place on **November 23-24, 2026**, delivered live through the ZOOM platform (**GMT+7**). This two-day virtual event is designed to bring together the global cosmetology community for focused learning, knowledge exchange, and professional interaction.

Centered on the theme “**Next-Generation Cosmetology: Research, Technology, and Outcomes**,” the webinar will explore how scientific research and advanced technologies are transforming modern cosmetic practice. Sessions will highlight innovative treatment methods, emerging tools, and outcome-oriented approaches that enhance skin care and aesthetic results.

The program includes expert keynote talks, interactive discussions, practical workshops, and opportunities for participants to present research findings and clinical experiences. Hosted entirely online, the webinar offers worldwide accessibility while maintaining an engaging and collaborative learning environment.
